

涂层硬毡
Coated hard
felt

石墨纸硬毡
Graphite paper
Hard felt

素面硬毡
Plain felt

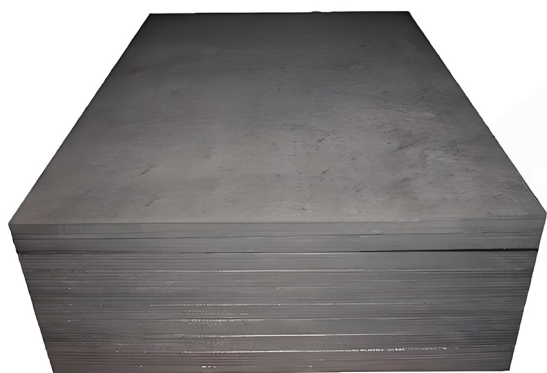

碳布硬毡
Carbon fabric
hard felt

产品特点：固化毡/硬质复合毡以碳纤维毡为原材料、经过合理复合工艺制备而成。固化毡/硬质复合毡的主体为层压及整体毡。可以根据需求在表面进行不同工艺的涂层，满足各种应用需求。相比碳纤维软毡而言，使用便利性更好，强度更高，使用寿命更长等优势。

Product features: The cured felt/hard composite felt is made from carbon fiber felt and is prepared through a reasonable composite process. The main body of the cured felt/hard composite felt is a laminated and overall felt. Different coating processes can be applied on the surface according to requirements to meet various application needs. Compared to carbon fiber soft felt, it has better ease of use, higher strength, and longer service life, etc.
